

CORONADO

In 1540, the legendary Francisco Vasquez de Coronado left Mexico and led an expedition in search of gold in the southwestern U.S. and northern Texas. Today, the Coronado name represents a beautiful combination of styles infusing Spanish flair with Old World traditions. Pieces are characterized by eye-catching features: intricate metalwork, decorative “serigraph” silkscreen treatments, and the sweeping curves of scroll legs and serpentine ends. Surround yourself with the elegant essence and “refined rustic” of **Coronado**.

Adjustable shelves serve a dual function in the **china base** as wine bottle storage on one side and shelf storage on the opposite side.

The top center drawer of the **buffet** is outfitted with a Guardian anti-tarnish silverware tray.

Six self-storing pie-shaped leaves slide apart and outward to expand the round dining table from 64" to 80" diameter.

THE ART ADVANTAGE

FEATURES AND BENEFITS

FINE SOLIDS AND VENEERS
The artistic use of exotic veneers from across the globe provides unsurpassed grain characteristics.

FRAGRANT CEDAR LINING
All bottom drawers are lined throughout with cedar, giving stored items a pleasing natural clean scent.

DOVETAIL DRAWER CONSTRUCTION
A.R.T. drawers are crafted with English dovetail joints at both the front and back, creating a tight connection and snug fit.

MACHINE RUBBED TOPS
On selected collections the tops are machine sanded followed by a machine rubbed water wax application adding depth and luster.

FITTED BACK PANELS
Each cabinet is fitted with a wood panel that is secured in place with screws, adding structural strength.

LONG LASTING DRAWER GUIDES
A wood on wood center drawer guide with stop is featured on every drawer. This system ensures a quiet, smoothly gliding drawer.
